

DINTEK DCT-010 Cable And PoE Tester

Introducing the DINTEK DCT-010 Cable And PoE Tester, a robust and reliable solution designed for network professionals and enthusiasts who demand efficiency and accuracy in their cable testing tasks. This compact device is specifically crafted to test the integrity of RJ11 and RJ45 cables, ensuring your network installations and cabling projects run smoothly and effectively.

The DINTEK DCT-010 Cable And PoE Tester stands out with its straightforward functionality and precision diagnostics. It quickly identifies wiring faults such as open circuits, shorts, and reversed pairs, QC testing of RJ45 plug crimp terminations and PoE testing, providing immediate feedback with its clear and easy-to-read indicator lights. Whether you are setting up a new network, troubleshooting existing connections, or performing routine network checks, this tester is an indispensable tool.

With its durable design and user-friendly interface, the DINTEK DCT-010 Cable And PoE Tester is perfect for both ICT professionals and Network cabling installers, guaranteeing that every connection is tested for quality and reliability. Experience the confidence of reliable network performance with this essential tool at your side.

Features & Benefits

- Continuity Testing | Open, Cross, Short, Reversed, Pass
- QC Testing | Efficient testing of RJ45/RJ11 plug crimp terminations
- PoE Testing | Identification of the type and power of PoE
- Compliant with IEEE 802.3af / 802.3at PoE standard
- Provision for RJ45 and RJ11 configurations
- Certification | Passes RoHS, FCC, and CE compliance testing
- Low battery power warning

Specifications

Characteristic	Value
Max Test Distance	2000m
RJ45 Plug Category	Cat.5e, Cat.6, Cat.6A
RJ11/12 Plug Category	Cat3 (6P2C/6P4C/6P6C)
QC test for RJ45 Plugs	✓
Wiremap Results	Open / Crossed / Short / Reversed / Pass
PoE Presence Detection	✓
PoE Standards Identified	802.3af / 802.3at
Power Supply	9Vdc
